

# Workshop - IUPAP

(International Union for Pure and Applied Physics)

## New Challenges in Pure and Applied Physics

10-13 October 2017- University of São Paulo, São Paulo - Brazil

The General Assembly of the International Union of Pure and Applied Physics (IUPAP) will be held for the first time in her history in Latin America. In conjunction with this event, a special workshop will be organized to discuss the new challenges in many areas of Physics. Work leaders in physics and leaders of IUPAP commissions will provide overall perspective in their respective fields and areas. Some of the special guests are: W. Phillips (Nobel Prize 1997), D. Wineland (Nobel Prize 2012); Robin Kaiser (France), Mark Raizen (USA). The workshop is an excellent opportunity to follow the progress in major fields of physics. This event is therefore highly recommended for all students and researchers in Physics.
